Fairmount Fire Protection District Receives Insurance Service Office ISO Class 1 Rating

GOLDEN, COLORADO, December 3, 2019— Fairmount Fire Rescue is proud to announce that it has received a Class 1 rating from the Insurance Service Office (ISO). The rating scale is from 1-10, with 1 being the best rating. The Class 1 rating is the highest possible score that can be given to any fire department nationwide. Fairmount Fire Rescue previously received a Class 2 rating from ISO in January 2017.

ISO's Public Protection Classification Program (PPC) plays an important role in the underwriting process at insurance companies. In fact, most U.S. insurers – including the largest ones – use PPC information as part of their decision making when deciding what insurance policies to write, coverages to offer, and prices to charge for personal or commercial property insurance. Residence and Businesses within Fairmount Fire Rescue may see insurance cost savings.

Chief Fletcher credits the lower score to the hard work and dedication by its members, Board of Directors and the surrounding fire agencies that assist Fairmount Fire Rescue with additional resources when needed. Additionally, he credits the North Table Mountain and Valley Water Districts for providing a well-established and maintained water system to the area. "We are

working hard to meet our mission, to provide the highest level of professional services while preserving life, property and the environment by being proactive, progressive and responsive to our communities".
